DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1 and 3-10 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: the prior art of record taken alone or in combination fails to teach or suggest a member for an electroluminescent device, comprising: a removing agent for removing a predetermined gas component; an adhesion member fixed to the removing agent wherein the adhesion member is a three-layer laminate comprising a substrate layer sandwiched between two adhesive layers; and a sheet member having a gas permeable portion covering said removing agent.

The prior art of record teaches a member for an electronluminescent device comprising a removing agent and adhesion member and a sheet member, however prior art of record taken alone or in combination fails to teach or suggest an adhesion member fixed to the removing agent wherein the adhesion member is a three-layer laminate comprising a substrate layer sandwiched between two adhesive layers in order to reduce the cost of manufacturing an electronluminescent device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following prior art are cited to further show the state of the art of composition of a member for an electroluminescent device.
